Summary: The Knowles Science Teaching Foundation (KSTF) Research Fellowship seeks to support early career scholars engaged in critical research in education. We encourage applications from scholars in all disciplines that promise to make significant scholarly contributions to areas that are consistent with the mission of KSTF, which is improving high school mathematics and science teaching in the United States. More specifically, we support those who can contribute to understanding recruitment, preparation, induction, mentoring and/or retention of high quality mathematics and science teachers.
