Agency/Department: NIH; NCI, NIDA

Summary: The purpose of this Funding Opportunity Announcement (FOA) is to foster research that furthers the translation of existing knowledge into treatment and treatment practice, or research that, in and of itself, will readily translate to clinical research or practice. This FOA is intended to encourage projects that provide tools and resources that serve as platforms for the development of effective prevention and treatment strategies. Collaboration of basic and applied investigators or between clinical and health services investigators working towards a common goal may produce new perspectives, insights and approaches to improving drug abuse prevention and treatment, and responsive applications will include such collaborations.
