**Grant Title:** PREDICTATORAL TRAINING AT THE INTERFACE OF THE BEHAVIORAL AND BIOMEDICAL SCIENCES (T32)

**Grant Number:** PAR-06-503

**Area of Research:** Support predoctoral research trainees at the behavioral sciences-biomedical sciences interface.

**Release and Expiration:** July 31, 2006 release; September 11, 2008 expiration.

**Application Deadline:** Letter of Intent: August 25, 2008; Application: September 25, 2008

**Amount:** Stipend: $20,772 for the 2006 fiscal year; Tuition, Fees, and Health Insurance: 100% of all costs up to $3,000 and 60% of costs in excess of $3,000 per trainee; Trainee Related Expenses: $2,200 annually; Trainee Travel, F&A, and Stipend Supplementation, Compensation, and Other Income is also provided. 5-10 awards.

**Length of Support:** Typically 1-3 years or up to 5 years.

**Eligible applicants:** Non-profit organizations; Public or private institutions, such as universities, colleges, hospitals, and laboratories; and Domestic Institutions.

**Agency/Department:** NIH; NIGMS

**Summary:** This funding opportunity provides support for predoctoral research trainees at the behavioral sciences-biomedical sciences interface. The goal of the program is to develop basic behavioral scientists with rigorous broad-based training in biology and biomedical science, who are available to assume leadership roles related to the Nation’s biomedical, behavioral and clinical research needs. These programs must provide an interdisciplinary research training experience and curriculum for predoctoral trainees that integrates both behavioral and biomedical perspectives, approaches and methodologies. These training programs must include coursework, laboratory rotations and programmatic activities that reinforce training at this interface. Significant participation by faculty and leadership from both behavioral and biomedical science departments is required, as is co-mentoring of trainees by faculty from both components.
