Grant Title: RESEARCH GRANTS TO PREVENT UNINTENTIONAL INJURIES

CFDA: 93.136

RFA Number: RFA-CE06-001

Area of Research/Purpose of Program: Expand and advance our understanding of what works to prevent unintentional injuries.

Letter of Intent: January 3, 2006

Application Deadline: February 3, 2006

Total Funding: Up to $250,000 per year (direct & indirect costs). $750,000 total. 2-3 awards.

Length of Support: Up to three years.

Eligible Applicants: public and private profit and nonprofit organizations, colleges and universities, research institutions, hospitals, community-based organizations, faith-based organizations, Indian tribal governments and organizations, and state and local governments.

Agency/Department: DHHS, CDC

Summary: This funding opportunity will support research that will help expand and advance our understanding of what works to prevent unintentional injuries, and how what works can best be translated for maximum impact in public health. Applications must address one of the following research objectives: (1) Dissemination Research: Conduct studies to build knowledge on methods, structures, and processes to implement existing evidence-based interventions, programs and policies to prevent unintentional injury related to the home and community, sports and exercise and motor vehicle travel; or (2) Intervention Evaluation Research: a) Evaluate the efficacy, effectiveness and/or cost effectiveness of behavioral, environmental, legislative or regulatory interventions to prevent unintentional injuries; or b) Develop and test theory-based interventions of parental supervision strategies to reduce unintentional injury among children.
