Organizations must also be determined not to be private foundations under Internal Revenue Code 509. No grants are made to individuals. With few exceptions, only organizations with principal operations in the United States and its territories are eligible for funding. Within the United States, there is no geographic limitation to the Foundation’s grantmaking.

**Foundation:** The Gerber Foundation

**Summary:** The Foundation’s mission focuses on infants and young children. Accordingly, priority is given to projects that improve infant and young children nutrition, care and development from the first year before birth to three years of age. Programs should support a specific nutrition intervention and have defined outcome parameters. Generally, competitive requests will be focused on particular projects in furtherance of the Foundation’s mission and goal of supporting nutrition-related interventions to improve infant health and development. Foundation grants are not typically ongoing. Supported projects should have beginnings and endings, reasonable periods during which measurable progress or outcomes are accomplished. The impact of Foundation funding should be detailed, so that the infusion of new or outside funding can be seen to have some positive influence on the progress or outcome of the project. The Foundation gives priority to projects of national or regional impact. Projects should be sufficiently focused to make a felt difference in the field of interest.
